Innovative Rotational Molding
2300 W. Pecan Ave.
Madera, CA 93637

Since our first project with IRM in 2010 we have done over 30 successful molds together. IRM's vision and attention to detail has been a key ingredient in our growth and prosperity over the last several years. Dan Humphries and his team are professional and fun to work with. I really recommend IRM for all your rotational molding projects.
