June 24, 2015

Dear IRM,

When I needed a very large oven to rotationally mold our 84" diameter tanks, my search led me to Dan Humphries and his company, Innovative Rotational Molding. We have been using IRM since 2010 for not only our biggest tanks, but also many of our other products as well. Dan has not only provided us with a component to our product we have confidence in but also has helped reshape our product and process' to be better than ever. The crew at IRM is always sensitive to our quality requirements and lead times and strive to make sure we always have quality parts in a timely fashion. I have been nothing but satisfied working with everyone at IRM, I highly recommend them for any and all of your rotational molding needs.

Best Regards,

Chris Krechter
